Annotated Bibliography to accompany

Academic Dishonesty in a High-Tech Environment.

Special Session, The Thirty-Fourth SIGCSE Technical Symposium on Computer Science Education,

JL Popyack, N Herrmann, P Zoski, B Char, CD Cera, RN Lass, A Nanjappa
Project DUPLEX, Drexel University, http://duplex.cs.drexel.edu

This bibliography is not meant to be comprehensive, but provides pointers to a breadth of articles and resources related to academic dishonesty, particularly with technological features.

Books about Academic Dishonesty

The following texts discuss various aspects of dishonesty: how students cheat, how to detect and combat cheating, how to discourage cheating. The Lathrop and Foss text is especially informative. The Noah and Eckstein text contains a section on high-tech dishonesty.

Scholarly Articles about Plagiarism in the Computing Disciplines

A search of relevant journals produced a list of more than 50 articles. See the DUPLEX website for this list. Some of the prominent articles:
